Reporting period	January 2023-January 2024	

Confirmation of records for plastics used on leased seabed areas (from the sea surface to the seabed)

I/we confirm that;

[REDACTED]

has maintained appropriate records for the above reporting period that reflect the procurement and disposal of plastics used on the listed seabed lease location(s) as part of measures employed to minimise the risk of losses to the marine environment and responsible disposal of plastic waste.

These records support the changes to procurements and disposal means reported below.

Relevant records of plastic procurements, stock and means of disposal employed for waste and redundant items used on leased sites will be retained for a minimum period of 5 years and will be made available to CES representatives on request during site visits.

1. Management of plastic in this reporting period

- (i) The comparison of records for the current and previous reporting period indicates that aggregated procurements of **multi-use plastics** deployed on leased sea-sites has remained the same

This was due primarily to the following reasons (*refer to Guidance for completing the Environmental Management of Plastics: Aquaculture Leaseholders Report*).

We have been unable to start the farm as yet due to health issues so no equipment or plastics have been placed/used on site this far.

- (ii) The comparison of records for the current and previous reporting period indicates that our aggregated procurements of **short term/ single-use plastics** used on leased sea-sites remained the same.

This was due primarily to the following reasons: (*refer to Guidance for completing the Environmental Management of Plastics: Aquaculture Leaseholders Report*).

We have been unable to start the farm as yet due to health issues so no equipment or plastics have been placed/used on site this far.

- (iii) The comparison of records for the current and previous reporting periods indicates that **changes to the proportion of waste plastic from leased sea-sites disposed of by recycling, re-use or to landfill** are as set out in Table 1 below.

Table 1: Aggregated changes to disposal methods across waste and redundant plastic used on lease sites in this reporting period.

Disposal method	Change from last reporting period	Single use (v)	Multi use (v)
Recycling	Increase	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Decrease	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Stay the same	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a

Re-use/re-purpose	Increase	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Decrease	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Stay the same	<input type="checkbox"/> n/a	n/a
Licensed Landfill	Increase	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Decrease	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Stay the same	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
Licensed Incineration-licensed (on-site is illegal)	Increase	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Decrease	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Stay the same	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
Other means of disposal.	Increase	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Decrease	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
	Stay the same	<input type="checkbox"/> n/a	<input type="checkbox"/> n/a
<i>Please insert details</i>			n/a

The [increases and/or decreases](#) in different disposal means listed in Table 1 are due primarily to the following reasons: (refer to [Guidance for completing the Management of Plastics: Aquaculture Leaseholders Report](#)).

We have been unable to start the farm as yet due to health issues so no equipment or plastics have been placed/used on site this far.

(Tenants may wish to comment on relative proportions of the different waste plastic disposal methods from their sea-sites, particularly where high levels of recycling are consistently achieved).

2. Improvements in management of plastics on leased sea-sites

Please provide any information you wish to share on measures undertaken over the reporting period regarding improvements in the management of plastics.

We have been unable to start the farm as yet due to health issues so no equipment or plastics have been placed/used on site this far.

3. Opportunities and challenges

Please comment on any opportunities, challenges and mitigating circumstances relevant to management of plastic used on leased sea-sites during the reporting period which you would like to share.

4. Any other relevant information

Please comment on any other factors you wish CES to be aware of regarding plastic use or waste management on your leased sites.

5. Report Completed by:

Signature: 

Date: 29/02/2024

Name: 

Title/Position in company: 

On behalf of: 

Once complete, please send your Annual Report by e-mail to:
aquareporting@crownestatescotland.com

Or, tenants may post their completed Annual Report to the Crown Estate at the below address.

Additional page for reporting on the improvements in management of plastics on leased sea-sites.
